Experience

Unico Global Solutions **Jan 2025 - Apr 2026**

Software Developer

- Built scalable and responsive applications using **React** following component-based architecture.
- Developed RESTful APIs using **Node.js** and **Express**, enabling secure and efficient frontend-backend communication.
- Deployed and maintained web and mobile applications across **production environments**, managing builds, releases, and application updates for reliable delivery.
- Troubleshot application, database and deployment issues, and coordinated with team members for maintenance and support.

Qspiders **July 2024 - Dec 2024**

Software Development Trainee

- Built reusable organizational components using **HTML, CSS, Tailwind CSS, React, and JavaScript**.
- Wrote and optimized **SQL queries** and designed database schemas in **MySQL and MongoDB** for efficient data storage and retrieval.
- Engaged in hands-on projects, bridging theoretical knowledge with practical applications in web development.

Projects

Study Orbit | Project Link **Aug 2026**

- Built a responsive MERN **Ed-Tech** web app with role-based access control (Student, Instructor, Admin), interactive dashboards, and course review systems.
- Integrated the **Razorpay payment gateway** for course purchases, cart checkout, and automated email receipts.
- Integrated **toast** notifications to provide real-time feedback for user actions, improving user engagement and satisfaction during interactions such as adding products to the cart and completing purchases.

RAG-Based Document Retrieval Q&A system | Project Link **May 2026**

- Built a **RAG**-based application for uploading documents and answering user queries using relevant document context.
- Implemented document chunking, embeddings, semantic retrieval, and context-aware response generation using **LangChain, ChromaDB, and OpenAI LLMs**.
- Designed a vector-search pipeline to retrieve relevant document chunks and provide grounded answers.

EasyWeds | Project Link **Feb 2026**

- Designed and built a comprehensive end-to-end **Wedding management platform** using MongoDB, Express.js, React.js, and Node.js.
- Implemented security hardening with Helmet.js, rate limiting, input validation (express-validator), secure file uploads with Multer/Cloudinary, and Twilio integration for communications.

Technical Skills

Languages: Python, Data Structures, HTML/CSS, JavaScript, TypeScript, SQL, Node Js, PHP
Developer Tools: VS Code, Git, GitHub
Frameworks/Libraries: Tailwind CSS, Bootstrap ,Material UI, ReactJs, Nextjs, React Native
AI/GenAI: LLMs, RAG, OpenAI, Claude, ChromaDB, Prompt Engineering
Database: MYSQL , MongoDB ,ChromaDB

Education

Punjab Technical University **July 2020 - April 2024**

Bachelor of Technology in Electronics and Communication Engineering, CGPA-7.5 *Jalandhar, India*

Don Bosco Sr. Sec. School **July 2018 - April 2019**

Intermediate (CBSE),CGPA-6.2 *Gorakhpur, India*

Achievements and Certifications

- Served as Student Coordinator in the **T&P** and **IIC**, overseeing **30+** placement events & organizing hackathons.
- Mastercard Cybersecurity Virtual Experience Program provided by Forage, **Date Earned**: August 20, 2023
- HackerRank Certified in **React** and **Node.js**, validating full-stack development skills. **Date Earned**: Nov 20, 2025
