## Experience

**Unico Global Solutions** **Jan 2025 - Apr 2026**

*Software Developer*

- Built scalable and responsive applications using **React** and **React Native**, following component-based architecture.
- Developed RESTful APIs using **Node.js** and **Express**, enabling secure and efficient frontend-backend communication.
- Deployed and maintained web and mobile applications across **production environments**, managing builds, releases, and application updates for reliable delivery.

**Dojj Apps** **July 2023 - Nov 2024**

*Software Developer*

- Implemented screen navigation, UI components, and gesture handling in **React Native** for mobile apps.
- Engaged in hands-on projects, bridging theoretical knowledge with practical applications in App development.

**Qspiders** **Jan 2023 - June 2023**

*Software Development Trainee*

- Built reusable organizational components using **HTML, CSS, Tailwind CSS, React, and JavaScript**.
- Collaborated with mentors and peers to understand industry best practices and coding standards.
- Engaged in hands-on projects, bridging theoretical knowledge with practical applications in web development.

## Projects

**Study Orbit** | Project Link **Aug 2026**

- Built a responsive MERN **Ed-Tech** web app with role-based access control (Student, Instructor, Admin), interactive dashboards, and course review systems.
- Integrated the **Razorpay payment gateway** for course purchases, cart checkout, and automated email receipts.
- Integrated **toast** notifications to provide real-time feedback for user actions, improving user engagement and satisfaction during interactions such as adding products to the cart and completing purchases.

**RAG-Based Document Retrieval Q&A system** | Project Link **June 2026**

- Built a **RAG**-based application for uploading documents and answering user queries using relevant document context.
- Implemented document chunking, embeddings, semantic retrieval, and context-aware response generation using **LangChain, ChromaDB, and OpenAI LLMs**.
- Designed a vector-search pipeline to retrieve relevant document chunks and provide grounded answers.

**Admin Panel App** | Project Link **March 2025**

- Developed a cross-platform admin panel using **React Native** to manage users, products, and analytics in real-time.
- Designed a modern, responsive UI using **NativeWind/Tailwind CSS**, ensuring consistency and performance across Android and iOS platforms.
- Successfully **deployed the React Native Admin Panel App on the Google Play Store** , managing release builds, versioning, and publishing process.

## Technical Skills

**Languages:** Python, Data Structures, HTML/CSS, JavaScript, TypeScript, SQL, Node Js
**Developer Tools:** VS Code, Git, GitHub
**Frameworks/Libraries:** Tailwind CSS, Bootstrap ,Material UI, ReactJs, Nextjs, React Native
**AI/GenAI:** LLMs, RAG, OpenAI, Claude, ChromaDB, Prompt Engineering
**Database:** MYSQL , MongoDB ,ChromaDB
**Cloud:** AWS

## Education

**Punjab Technical University** **July 2020 - April 2024**

*Bachelor of Technology in Electronics and Communication Engineering, CGPA-7.5* *Jalandhar, India*

**Don Bosco Sr. Sec. School** **July 2018 - April 2019**

*Intermediate (CBSE),CGPA-6.2* *Gorakhpur, India*

## Achievements and Certifications

- Served as Student Coordinator in the **T&P** and **IIC**, overseeing **30+** placement events & organizing hackathons.
- Mastercard Cybersecurity Virtual Experience Program provided by Forage, **Date Earned**: August 20, 2023
- HackerRank Certified in **React** and **Node.js**, validating full-stack development skills. **Date Earned**: Nov 20, 2025
